### Clinical Indication

Annual wellness examination with comprehensive prediabetes. Prior lipid panel (2024) showed LDL 1

### Specimen Information

Primary tube: SST serum separator, gold top — Quantity: 2  
Secondary tube: EDTA whole blood, lavender top — Quantity: 1  
Transport: Room temperature, delivered to lab within 2 hours

Lipid Panel

| Test                                   | Result | Flag | Reference Interval | Unit  |
|----------------------------------------|--------|------|--------------------|-------|
| Total Cholesterol (Cholesterol, Total) | 218    | H    | 125 - 200 mg/dL    | mg/dL |
| LDL Cholesterol (LDL-C)                | 142    | H    | 0 - 100 mg/dL      | mg/dL |
| HDL Cholesterol (HDL-C)                | 44     | —    | >= 40 mg/dL        | mg/dL |
| Triglycerides (TG)                     | 168    | H    | 0 - 150 mg/dL      | mg/dL |
| Non-HDL Cholesterol (Non-HDL-C)        | 174    | H    | 0 - 130 mg/dL      | mg/dL |
| Apolipoprotein B (Apo B)               | 98     | H    | 0 - 90 mg/dL       | mg/dL |
| Lipoprotein(a) (Lp(a))                 | 22     | —    | 0 - 30 mg/dL       | mg/dL |

Blood  
Sugar

| Test                                      | Result | Flag | Reference Interval | Unit   |
|-------------------------------------------|--------|------|--------------------|--------|
| Glucose (Fasting) (Fasting Blood Glucose) | 108    | H    | 70 - 99 mg/dL      | mg/dL  |
| HbA1c (Hemoglobin A1c)                    | 5.8    | H    | 4 - 5.6 %          | %      |
| Insulin (Fasting) (Fasting Insulin)       | 18.4   | —    | 2.6 - 24.9 µIU/mL  | µIU/mL |

Kidney

| Test                          | Result | Flag | Reference Interval  | Unit          |
|-------------------------------|--------|------|---------------------|---------------|
| Creatinine (Serum Creatinine) | 1.0    | —    | 0.74 - 1.35 mg/dL   | mg/dL         |
| Blood Urea Nitrogen (BUN)     | 16     | —    | 7 - 20 mg/dL        | mg/dL         |
| eGFR (Estimated GFR)          | 94     | —    | >= 90 mL/min/1.73m² | mL/min/1.73m² |
| Uric Acid (Serum Uric Acid)   | 6.8    | —    | 3.4 - 7 mg/dL       | mg/dL         |

Liver

| Test                               | Result | Flag | Reference Interval | Unit  |
|------------------------------------|--------|------|--------------------|-------|
| ALT (Alanine Aminotransferase)     | 38     | —    | 7 - 56 U/L         | U/L   |
| AST (Aspartate Aminotransferase)   | 28     | —    | 10 - 40 U/L        | U/L   |
| Alkaline Phosphatase (ALP)         | 72     | —    | 44 - 147 U/L       | U/L   |
| Total Bilirubin (Bilirubin, Total) | 0.7    | —    | 0.1 - 1.2 mg/dL    | mg/dL |
| Albumin (Serum Albumin)            | 4.4    | —    | 3.5 - 5.5 g/dL     | g/dL  |
| GGT (Gamma-GT)                     | 42     | —    | 8 - 61 U/L         | U/L   |

Thyroid

| Test                              | Result | Flag | Reference Interval | Unit  |
|-----------------------------------|--------|------|--------------------|-------|
| TSH (Thyroid Stimulating Hormone) | 2.1    | —    | 0.4 - 4 mIU/L      | mIU/L |
| Free T4 (Free Thyroxine)          | 1.2    | —    | 0.8 - 1.8 ng/dL    | ng/dL |
| Free T3 (Free Triiodothyronine)   | 3.1    | —    | 2.3 - 4.2 pg/mL    | pg/mL |

Complete  
Blood  
Count

| Test                          | Result | Flag | Reference Interval     | Unit       |
|-------------------------------|--------|------|------------------------|------------|
| Hemoglobin (Hgb)              | 14.8   | —    | 13.5 - 17.5 g/dL       | g/dL       |
| Hematocrit (Hct)              | 43.2   | —    | 38.3 - 48.6 %          | %          |
| White Blood Cells (WBC Count) | 6.2    | —    | 4.5 - 11 K/ $\mu$ L    | K/ $\mu$ L |
| Red Blood Cells (RBC Count)   | 4.8    | —    | 4.35 - 5.65 M/ $\mu$ L | M/ $\mu$ L |
| Platelets (Platelet Count)    | 248    | —    | 150 - 400 K/ $\mu$ L   | K/ $\mu$ L |

Vitamins &  
Minerals

| Test                                    | Result | Flag | Reference Interval  | Unit       |
|-----------------------------------------|--------|------|---------------------|------------|
| Vitamin D (25-OH) (25-Hydroxyvitamin D) | 22     | L    | 30 - 100 ng/mL      | ng/mL      |
| Vitamin B12 (Cobalamin)                 | 412    | —    | 200 - 900 pg/mL     | pg/mL      |
| Ferritin (Serum Ferritin)               | 118    | —    | 30 - 400 ng/mL      | ng/mL      |
| Iron (Serum Iron)                       | 88     | —    | 65 - 175 $\mu$ g/dL | $\mu$ g/dL |

Inflammation

| Test                                 | Result | Flag | Reference Interval | Unit  |
|--------------------------------------|--------|------|--------------------|-------|
| C-Reactive Protein (CRP)             | 4.2    | H    | 0 - 3 mg/L         | mg/L  |
| ESR (Erythrocyte Sedimentation Rate) | 12     | —    | 0 - 15 mm/hr       | mm/hr |

Electrolytes

| Test                    | Result | Flag | Reference Interval | Unit  |
|-------------------------|--------|------|--------------------|-------|
| Sodium (Na)             | 140    | —    | 136 - 145 mEq/L    | mEq/L |
| Potassium (K)           | 4.2    | —    | 3.5 - 5 mEq/L      | mEq/L |
| Calcium (Serum Calcium) | 9.4    | —    | 8.6 - 10.2 mg/dL   | mg/dL |

## Laboratory Notes & Methodology

- Specimens were collected via venipuncture and processed within 4 hours of collection.
- Lipid panel, glucose, and insulin assays performed on serum after centrifugation at 3400 RPM for 10 minutes.
- HbA1c measured by high-performance liquid chromatography (HPLC).
- Thyroid panel by chemiluminescent immunoassay. CBC performed on whole blood with automated cell counter.
- Vitamin D (25-OH) measured by LC-MS/MS. CRP by high-sensitivity nephelometry.
- Reference intervals reflect adult male population unless otherwise noted. Flag H = above reference, L = below reference.
- Results should be interpreted in clinical context. This report is for demonstration purposes only.
- Fictional patient and facility data — not a real medical record.
